

Job Description – Junior Project Engineer

Company: Rosewood Engineering Part of the Empower Group

Salary: £20,000.00 - £25,000.00 per annum

Employment: Full Time in the office

Location: Blackburn, BB2 2QB

About the Company:

Rosewood Engineering is a leading provider of mechanical engineering services for the UK water and wastewater sector. The company has over 30 years of experience delivering high-quality mechanical installations, maintenance, and refurbishment projects for major utilities and contractors. Rosewood is known for its technical expertise, safety standards, and commitment to reliable service.

Rosewood Engineering is part of Empower Technical Services a fast-growing UK technical services group whose mission is to unite complementary capabilities in Mechanical, Electrical, HVAC, Renewables, and Fire & Security to better serve commercial and industrial clients. Joining Rosewood means contributing to essential infrastructure while benefiting from the scale, investment, and career opportunities of the wider Empower group.

Job Profile

We are seeking a Junior Project Engineer to join our expanding organisation within the wastewater sector. The successful candidate will play a key role in supporting project delivery and contributing to the continued growth of the business.

You will work closely with major UK utility companies across the Northwest and Midlands, helping to ensure projects are delivered efficiently, safely, and to a high standard.

Key Duties and Responsibilities

Project Planning & Delivery

- Support detailed site visits to gather the information required to produce accurate quotations.
- Issue enquiries to suppliers to obtain competitive pricing and support cost-effective project planning.
- Assist in managing projects from order receipt through to completion and client handover.
- Monitor project budgets to help ensure delivery within agreed financial targets.
- Prepare and maintain site documentation.
- Collate site information and documentation to accurately record and track site performance.

Client & Stakeholder Communication

- Liaise directly with clients on all aspects of project delivery, including quotations, permits, progress updates, and completion documentation.
- Provide regular project updates to senior management, highlighting progress, risks, and any required actions.

Job Requirements

Experience & Qualifications

- Ideally suited to a graduate seeking to gain experience within the industry.

Skills & Competencies

- Strong IT skills, including proficiency in Microsoft Word and Excel.
- Excellent problem-solving skills, with the ability to respond quickly to unexpected issues.
- Strong communication skills, with the ability to work effectively with clients, internal teams, and site personnel.
- Ability to work independently, manage workload efficiently, and handle multiple projects simultaneously.

Benefits:

Company pension, Life Insurance, annual leave, healthcare
