

HIGH PERFORMANCE WINDOW FILMS

~PROVIDING SECURITY & COMFORT~

SPECIALIST HEAT CONTROL FILM

Spectrally Selective Heat Control

The Closest to a Clear Film with Good Heat Rejection

High Performance Window Films' Spectrally Selective Heat Control is a state-of-the-art window film that provides excellent **solar heat rejection** while maintaining **maximum visible light transmission**. It is ideal for situations where **solar heat control is needed, but glare control is not a priority**, ensuring a **natural window appearance** without significant dimming.

☀️ FEATURES & BENEFITS

◆ Key Features:

- ✓ Virtually clear while still offering **good heat rejection**
- ✓ Quick, retro-fit installation without disrupting existing glazing
- ✓ Blocks up to **99% of harmful UV rays**, reducing interior fading
- ✓ Maintains natural daylight levels while improving energy efficiency

☀️ Key Benefits:

- ✓ Reduces **solar heat gain**, keeping interiors cooler and more comfortable
 - ✓ Helps lower air conditioning costs by reducing cooling load
 - ✓ Protects furniture, flooring, and décor from sun damage and fading
 - ✓ Ideal for locations requiring high **visibility and natural aesthetics**
-

Where to Use:

 **Office Buildings** – Maintain a natural glass appearance while improving energy efficiency.

 **Residential Homes** – Reduce heat buildup while keeping interiors bright and comfortable.

 **Retail & Showrooms** – Ideal for store windows, motor showrooms, and displays needing clear visibility.

 **Healthcare Facilities** – Control heat without significantly reducing daylight in patient areas.
