

Job Description – Mechanical Fitter

Company: Rosewood Engineering Part of the Empower Group

Salary: £17.25 - £20.55 per hour depending on experience

Employment: Full Time 07:30 – 17:00 Monday to Friday

Location: Blackburn, BB2 2QB

About the Company:

Rosewood Engineering is a leading provider of mechanical engineering services for the UK water and wastewater sector. The company has over 30 years of experience delivering high-quality mechanical installations, maintenance, and refurbishment projects for major utilities and contractors. Rosewood is known for its technical expertise, safety standards, and commitment to reliable service.

Rosewood Engineering is part of Empower Technical Services a fast-growing UK technical services group whose mission is to unite complementary capabilities in Mechanical, Electrical, HVAC, Renewables, and Fire & Security to better serve commercial and industrial clients. Joining Rosewood means contributing to essential infrastructure while benefiting from the scale, investment, and career opportunities of the wider Empower group.

Job Profile

We are seeking a skilled Mechanical Fitter to join our expanding organisation within the Wastewater sector. The successful candidate will support site-based mechanical works, including installation, refurbishment, commissioning, and handover of equipment, working safely and efficiently to agreed standards and deadlines.

Key Duties and Responsibilities

- Strip down, refurbish, and rebuild a variety of mechanical machinery and equipment using provided components and parts
- Carry out commissioning activities and complete handover of equipment to clients upon project completion
- Work in accordance with job-specific Method Statements and Risk Assessments
- Maintain tools, equipment, and company assets to a high standard
- Ensure all Health & Safety documentation is completed accurately and to a high standard
- Work independently or as part of a site team, depending on project requirements
- Demonstrate a proactive and positive approach to problem solving
- Ensure work is completed within agreed timescales and project deadlines
- Travel and work away from home when required (night allowance and accommodation provided)
- Comply with company policies, procedures, and site-specific safety requirements at all times

Skills, Experience and Requirements

- Experience in mechanical fitting and assembly of components
- Full UK Driving Licence
- Right to work in the United Kingdom
- Ability to work flexibly, including staying away from home when required

- 3 years experience within Mechanical Engineering
- Ideally based in or around the Lancashire area
- Previous experience within the water or wastewater industry
- CSCS card or equivalent
- Confined Space Training

Benefits:

Company car, Company pension, Life Insurance, annual leave, healthcare
