

Administering Medication Policy

If a child attending **Kidz Enterprise** requires prescription medication of any kind, their parent or carer must complete a **Permission to Administer Form** in advance. Kidz Enterprise staff will not administer any medication without such prior written consent.

Ideally children should take their medication before arriving at the Club. If this is not possible, children will be encouraged to take personal responsibility for their medication, if appropriate. If children carry their own medication (eg asthma inhalers), Kidz Enterprise staff will offer to keep the medication safe until it is required. Inhalers must be labelled with the child's name.

Prescription Medication

Kidz Enterprise can only administer medication that has been prescribed by a doctor, dentist, nurse or pharmacist. If a medicine contains aspirin we can only administer it if it has been prescribed by a doctor. All medication provided must have the prescription sticker attached which includes the child's name, the date, the type of medicine and the dosage.

Non-prescription medication

If a child requires a non-prescription medication to be administered, we will consider this on a case by case basis after careful discussion with the parent or carer. We reserve the right to refuse to administer non-prescription medication. Non-prescription medicine does not require a GP prescription before Out of School Club can administer.

Procedure for administering medication

A designated Kidz Enterprise member of staff will be responsible for administering medication or for witnessing self-administration by the child. The designated person will record receipt of the medication in the **Medication Log within the child's account**, will check that the medication is properly labelled, and will ensure that it is stored securely during the session.

Before any medication is given, the designated person will:

- Check that Kidz Enterprise has received written consent
- Take steps to check when the last dosage was given
- Ask another member of staff to witness that the correct dosage is given.

When the medication has been administered, the designated person must:

- Record all relevant details on the **Record of Medication within the child's account**
- Email a notification of Medication given within the child's account

If a child refuses to take their medication, Kidz Enterprise staff will not force them to do so. The manager and the child's parent or carer will be notified, and the incident recorded on the **Record of Medication Given Form within the child's account**.

Specialist Training

Certain medications require specialist training before use, eg Epi Pens. If a child requires such medication the manager will arrange appropriate training as soon as possible. It may be necessary to absent the child until such training has been undertaken. Where specialist training is required, only appropriately trained staff may administer the medication.

Changes to Medication

A child's parent or carer must complete a new **Permission to Administer Form** if there are any changes to a child's medication (including change of dosage or frequency) and the Medication Log within the child's account must be updated.

Long Term Conditions

If a child suffers from a long term medical condition Kidz Enterprise will ask the child's parents to provide a medical care plan from their doctor, to clarify exactly what the symptoms and treatment are so that Kidz Enterprise has a clear statement of the child's medical requirements.

Calpol

In the event that a child becomes unwell whilst attending our club: Before any medication is given, the designated person will:

- Check that Kidz Enterprise has received consent for Calpol within the child's registration details
- Ask another member of staff to witness that the correct dosage is given.

When the medication has been administered, the designated person must:

- Record all relevant details on the **Calpol Record of Medication Form**
- Ask the child's parent or carer to sign the form to acknowledge that the medication has been given.
