

Coaching Testimonials

James' coaching style really works for me, helping me get to the core of the matter and always coming away with my own strategy and next steps. I feel listened to and supported yet challenged, this balance is perfect for moving forward and taking action.

James has been excellent in terms of helping me to focus on key themes and messaging specific to my organisation. I have enjoyed our sessions together and I think a large part of that is the way James has not imposed a standard one size fits all approach, rather working with me to really understand our business and drawing on my knowledge to shape a suitable risk, audit and assurance strategy. This has all been done within a fairly demanding timeframe so I have appreciated James' flexibility in working around my day to day business demands.
