BASIC ASSESSMENT and SUPPORT in INTENSIVE CARE

BASIC Instructor Course

26-28 August 2025

Glan Clwyd Hospital, North Wales

Running concurrently with our yearly BASIC provider course, we are proud to offer the BASIC instructor course.

These courses are few and far between, because they are logistically challenging to run. A look at the BASIC website reveals that there are currently none on offer, apart from this one.

So grab your place before it goes.

The course will be of interest to anyone thinking of providing or teaching on the BASIC course in their own hospital. BASIC is increasingly recognised as the 'Gold Standard' course to offer to your new-start ICM doctors, covering the key elements of the specialty including assessment, ventilation, vasoactives, tracheostomies, NIV and the like.

Scan the QR code above and navigate to the course, or email Gareth.Thomas12c36a@wales.nhs.uk or tap [HERE](#)

Requirements:

- Complete form & pay course fee (£500)
- Read the manual and complete MCQ
- Day 1: rehearse your lectures and workshops with faculty
- Day 2 & 3: teach on the provider course with support
