# BASIC ASSESSMENT and SUPPORT in INTENSIVE CARE

## BASIC Course

27-28 August 2025

Glan Clwyd Hospital, North Wales

BASIC is a 2-day course that covers the fundamental aspects of Intensive Care Medicine. It's a bit like ALS but for Critical Care, and takes you way beyond what ALS can offer.

The BASIC course covers things like ventilation, inotropes, tracheostomies and trauma - with a mix of lectures and hands-on workshops led by consultants in Critical Care.

Unclear on what PEEP to set? Unsure why you can't have the cuff up with a speaking valve? Wondering whether to give another fluid bolus or just start noradrenaline? Then BASIC might be for you!

Scan the QR code above and navigate to the course, or email
