CARBON REDUCTION PLAN GUIDANCE

Notes for Completion

Where an In-Scope Organisation has determined that the measure applies to the procurement, suppliers wishing to bid for that contract are required at the selection stage to submit a Carbon Reduction Plan which details their organisational carbon footprint and confirms their commitment to achieving Net Zero by 2050.

Carbon Reduction Plans are to be completed by the bidding supplier¹ and must meet the reporting requirements set out in supporting guidance, and include the supplier's current carbon footprint and its commitment to reducing emissions to achieve Net Zero emissions by 2050.

The CRP should be specific to the bidding entity, or, provided certain criteria are met, may cover the bidding entity and its parent organisation. In order to ensure the CRP remains relevant, a Carbon Reduction Plan covering the bidding entity and its parent organisation is only permissible where the detailed requirements of the CRP are met in full, as set out in the Technical Standard² and Guidance³, and all of the following criteria are met:

- The bidding entity is wholly owned by the parent;
- The commitment to achieving net zero by 2050 for UK operations is set out in the CRP for the parent and is supported and adopted by the bidding entity, demonstrated by the inclusion in the CRP of a statement that this will apply to the bidding entity;
- The environmental measures set out are stated to be able to be applied by the bidding entity when performing the relevant contract; and
- The CRP is published on the bidding entity's website.

Bidding entities must take steps to ensure they have their own CRP as soon as reasonably practicable and should note that the ability to rely on a parent organisation's Carbon Reduction Plan may only be a temporary measure under this selection criterion.

The Carbon Reduction Plan should be updated regularly (at least annually) and published and clearly signposted on the supplier's UK website. It should be approved by a director (or equivalent senior leadership) within the supplier's organisation to demonstrate a clear commitment to emissions reduction at the highest level. Suppliers may wish to adopt the key objectives of the Carbon Reduction Plan within their strategic plans.

A template for the Carbon Reduction Plan is set out below. Please complete and publish your Carbon Reduction Plan in accordance with the reporting standard published alongside this PPN.

¹Bidding supplier or 'bidding entity' means the organisation with whom the contracting authority will enter into a contract if it is successful.

Carbon Reduction Plan

Supplier name: Clydesdale Pharma Ltd.

Publication date: January 2025

Commitment to achieving Net Zero

Clydesdale Pharma is committed to achieving Net Zero emissions by 2048.

We are committed to the continual improvement of quality and environmental performance and the development of our policies and culture. The management will therefore provide adequate resource to enable our aims and objectives to be met. We will regularly review our performance to develop improvement plan across all business units.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: Jan 2023 to Dec 2023	
Additional Details relating to the Baseline Emissions calculations.	
<p>In 2023, Clydesdale Pharma committed to working towards a Carbon Reduction Plan, resulting in 0% Carbon Emissions by 2048.</p> <p>We are currently working to work with us to record our current Carbon Emissions, and to formulate a plan to reach our targets.</p>	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	In the year 2023 we have baseline assessment which is provided below: <ul style="list-style-type: none">Utilities in Bramley<ul style="list-style-type: none">Gas consumption – 2.50t CO₂e
Scope 2	In the year 2023 we have baseline assessment which is provided below: <ul style="list-style-type: none">Utility Electricity – 19.62t CO₂e
Scope 3	In the year 2023 we have baseline assessment which is provided below: <ul style="list-style-type: none">We estimated the overseas transportation of Goods from to UK – 40.8 tCO₂e

Baseline Year: Jan 2023 to Dec 2023	
	<ul style="list-style-type: none"> We have estimated that the transportation of goods in UK from our warehouse to the customer – 5.21430 tCO₂e We have evaluated the carbon footprint for all our employees commuting to the office - 12.0 tCO₂e
Total Emissions	Approximately 80.134tCO ₂ e

Current Emissions Reporting

Reporting Year:			
EMISSIONS	2023 TOTAL (tCO ₂ e)	2024 TOTAL (tCO ₂ e)	2025 TOTAL (tCO ₂ e)
Scope 1	2.50	0.00	N/A
Scope 2	19.62	17.50	N/A
Scope 3 (Included Sources)	58.00	62.00	N/A
Total Emissions	80.13	79.55	N/A

Emissions reduction targets

We do not have any previous historic emissions reduction targets.

Carbon Reduction Projects

Carbon Reduction Initiatives

Since 2022, Clydesdale Pharma have taken the initiatives to carry out the following activities and future projects planned to reduce energy consumption and mitigate emissions:

- 1) We have already implemented the LED lighting replacement as and when existing luminaires fail.
- 2) Since 2023 we have already introduced EV charging point and will change company diesel vehicles to electric vehicles.
- 3) We will be introducing a change in our policy regarding travel resulting in a reduction in company travel and flights.
- 4) From 2024 we will be working toward implementing solar energy system to its warehouse units.

- 5) Towards the end of 2025, a series of eco-driving training will take place to encourage improved efficient driving for the transport drivers.
- 6) From 2024 onwards, Clydesdale Pharma shall be working with partner transportation company who have carbon reduction plan in place to ensure that Net zero is achieved as per the government policies in the stipulated timeframe.

Declaration and Sign Off

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
