

NHP MDT REFERRAL PATHWAY

Pathway of Referral:

Monthly MDT: All Clinicians are encouraged to first present cases at their HCC MDT and to share outcome of their respective MDMs- (Hospital, month, year) with the NHP.

Please use updated NHP Referral form located on this site and, once filled, return to:
gst-tr.haemoglobinpanel@nhs.net

Referral IDs are being developed in line with HCC configuration and forms will be saved anonymously.

We encourage referring consultants to provide their own reference – ideally hospital MRN - which we will cross reference. For patient protection, please do not include NHS Number, Name or other identifiable patient data.

Emergency MDT: After seeking opinion of senior/lead HCC clinician, Consultants can email for urgent expert input on complex cases via: gst-tr.haemoglobinpanel@nhs.net

Referral and MDT Action Timeline
