

Carbon Reduction Plan

Supplier name: Prime Healthcare Avenue

Publication date: August 2025

Commitment to Achieving Net Zero

Prime Healthcare Avenue is committed to achieving net zero emissions by 2050 for all UK operations.

Baseline Emissions Footprint

Baseline year: 2024

Additional details relating to the baseline emissions calculations:

This is our first baseline year. Figures have been calculated in accordance with the UK Government GHG Conversion Factors for Company Reporting and include Scope 1, Scope 2, and the required subset of Scope 3 emissions in line with PPN 06/21 guidance.

Baseline year emissions:

Scope 1	12
Scope 2	8
Scope 3 (included sources)	24
Total emissions	44

Current Emissions Reporting

Reporting year: 2025

Emissions TOTAL (tCO₂e)

Scope 1	11
Scope 2	7
Scope 3 (included sources)	22
Total emissions	40

Emissions Reduction Targets

We project that carbon emissions will decrease to 30 tCO₂e by 2030, representing a 32% reduction from the 2024 baseline.

Carbon Reduction Projects

Completed carbon reduction initiatives:

- Switched to 100% renewable electricity for all sites.
- Introduced a low-emission travel policy, reducing mileage and flights.
- Upgraded to LED lighting with PIR sensors across facilities.
- Partnered with a recycling-based confidential waste provider.
- Adopted paperless care planning to reduce printing and storage.

These measures have achieved a 4 tCO₂e reduction since the baseline year.

Future carbon reduction initiatives:

- Transition to a fully electric vehicle fleet by 2028.
Install solar PV panels on office facilities by 2027.
- Introduce a zero-landfill waste policy.
- Include sustainability performance in supplier selection.
- Implement rainwater harvesting systems to reduce water-related emissions.

Declaration and Sign-Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and the associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the GHG Reporting Protocol corporate standard and the appropriate government emission conversion factors for greenhouse gas company reporting. Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.

Signed on behalf of the supplier:

A handwritten signature in dark ink, appearing to read 'Eqbal Farah', with a small dot at the end.

Name: Eqbal Farah

Position: Director
