Dolvit[®] Calcium phosphate A D₃ E

Formula for dogs
in the form of powder

Calcium Phosphorus

500 g

Dietary Supplement for Dogs

Properties

Calcium and phosphorus aid the proper development of bones and teeth, especially during rapid growth. Vitamin A is essential for immune system support and is necessary in growth and development of young dogs. Vitamin D₃ is needed to provide a balanced ratio of Calcium and Phosphorus and aid their absorption. The product maintains healthy teeth, bones, skin and shiny coat.

Dolvit[®] Calcium phosphate AD₃E aims to balance the requirements of minerals and vitamins in puppies, pregnant and nursing dogs, as well as adult dogs, especially after orthopaedic injuries.

Directions for use

1 measure (5g) per 10 kg body weight / day

If applied to puppies, nursing and pregnant females, the dose can be doubled.
