

Keum Boo Workshop

Keum Boo is the ancient Korean Art of applying gold Foil (not leaf, Foil is thicker) to Silver. I will show you how to apply Gold Foil to Sterling Silver and Fine silver. And how to oxidise your work (if you choose), to create a dramatic attractive black and gold Look. We will make a Pendant (with Bail) from your creations.

You will leave with your own unique piece of Gold and Silver Jewellery and a How to hand out which will enable you to practice this technique at home.
