Dear customer , Happy New Year

Having looked again at the prices for exhibiting at this years IWA Show, a decision has now been taken that we will no longer take part in the exhibition again. By doing this, we have managed to keep our prices the same as 2024 even though raw material prices have risen throughout the year. You will find in this year's price list, several items which we have now been able to offer at a special price.

Again, this year we have produced a PDF copy of our 2025 catalogue. We hope you find items of interest.

Due to the problems some customers were having regarding deliveries, we are shipping into Europe with UPS and finding this on par regarding pricing, but with much less problems.

Again, as with previous years there is still a lot of confusion regarding importation of goods from the UK after leaving the European Union, so having contacted our Chamber of Trade asking for clarification regarding any updates on exportation matters, we have the following information. If items are made/ produced within the UK and are listed on the commercial invoice as country of manufacture UK, then there should be no import duty on this item (there still may be duties on the shipping).

TMB Designs does not charge VAT on products destined for sale outside the UK.. But the couriers will charge VAT on the goods at the destination country, which you, should be able to reclaim in the normal manner.

To help with this, we have placed on our price list "UK" against each UK manufactured item. We hope this will help, when decisions are being made, to whether this item is tariff/ duty free.

Please stay safe and we hope that you have a successful 2025

Regards
Trevor & Jayne Bailey
