ChitoFos[®]

Formula
for dogs and cats
in the form of powder

**Renal
Support**

150 g

Dietary Supplement for Dogs and Cats

Properties

ChitoFos[®] aids renal function for cats and dogs. The formula contains chitosan, calcium carbonate and lactose to maintain normal kidney function and health. Chitosan – is a component of sea crustaceans like lobster, shrimp and crab shells. Calcium carbonate binds phosphorus and creates insoluble phosphate salts, which maintains its levels in the organism. Calcium carbonate binds phosphates and chitosan absorbs phosphates, as well as uremic waste such as creatinine.

Directions for use

1 measure (1 g) per 5 kg body weight twice a day. Formula should be mixed with wet feed.
