Any information that is shared with the staff team, is done on a 'need to know' basis and treated with confidence. This policy will work alongside the Privacy Notice to ensure compliance under General Data Protection Regulation (Regulation (EY) 2016/679 (GDPR) and Data Protection Act 2018.

Procedures

It is our intention to respect the privacy of children and their families, and we do so by:

- Storing confidential records in a locked filing cabinet or on the office computer with files that are password protected.
- Ensuring staff, student and volunteer inductions include an awareness of the importance of confidentiality and that information about the child and family is not shared outside of the setting other than with relevant professionals who need to know that information. It is not shared with friends and family, discussions on the bus or at the local bar. If staff breach any confidentiality provisions, this may result in disciplinary actions and, in serious cases, dismissal. Students on placement in the nursery are advised of our confidentiality policy and required to respect it.
- Ensuring that all staff, volunteers and students are aware that this information is confidential and only for use within the nursery and to support the child's best interests with parental permission.
- Ensuring that parents have access to files and record of their own children but not to those of any other child, other than where relevant professionals such as the police or local authority children's social care team decide this is not in the child's best interest.
