Reticulated Silver is a great way to add texture to your work. In this workshop I will teach you this versatile technique that will enable you to add interest and keep your creations totally unique and one of a kind.

Once we have Reticulated the silver I will show you how to make a pair of Earrings or a Pendant with a Bail (to be able to attach it to a chain) with your reticulated silver. At the end of the workshop you will have a piece(s) of jewellery to take away as well as comprehensive 'how to' notes to enable you to practice this technique at home.
