# OrnitoVit®

## PARROTS

### Vitamins and Minerals

**60 g****Dietary Supplement for large parrots (aras, amazons, jacos)****Properties**

**OrnitoVit® PARROTS** is a soluble mixture for parrots with a well selected set of vitamins, minerals and essential amino acids. **OrnitoVit® PARROTS** plays an important role in balancing the nutritional requirements of your birds, to improve overall condition, performance, aid fertility and support the immune system. The product is the key to impeccable plumage and better feather quality.

**Directions for use**

1 measure (0.7g) per 50 ml of water. It is applied dissolved in water and birds take it according to their needs.

If applied with feed – 1 measure per 1 spoon of soft feed (the amount for a couple of Amazons). You can also give the measured amount when mixed with soft food.
