Dietary Supplement for Dogs

Properties

The formula contains type-II collagen, hyaluronic acid (HA), chondroitin and New Zealand mussel (green-lipped mussel) – components of the cartilage and the synovial fluid. Omega-3 acids aid joints and bones. Vitamin C is a natural antioxidant which is important to the synthesis of collagen and maintains the structure of tissues and organs including skin, bones and blood vessels. This product is recommended for all dog breeds, especially for young growing dogs to maintain healthy joints.

Directions for use

dogs: under 20 kg body weight - 1 tablet / day
20 - 40 kg body weight - 2 tablets / day
over 40 kg body weight - 3 tablets / day
