Course Description

The main emphasis of the Advanced Higher course will be either on expressive or design work, and an investigation of your own choice.

Expressive Enquiry: The identification and selection of a theme capable of supporting sustained study in depth. It is important that you should be able to comment on the development of ideas in relation to the final intentions.

Design Enquiry: The identification of a theme and the resolution of design problems arising from it. It should be challenging in terms of aesthetic, functional and human considerations. You will be expected to arrive at a conclusion sufficiently developed, documented and presented to enable appropriate assessment.

Expectations for Homework

You will be expected to continue research and development work at home including written work on chosen artists or designers.
