SOCIAL STUDIES

Content

The course has three areas of study:

- Economics of the market
- UK economic activity
- Global economic activity

Skills

Learners will be able to:

- understand how markets work and how they affect our daily lives
- understand economic problems and explain those problems and consider possible solutions to them
- develop confidence in making decisions and in solving economic issues
- think critically by devising economic solutions to a range of economic problems
- analyse relatively complex economic information and communicate it in a clear and concise way

Opportunities for Learners

Learners will be able to:

- analyse economic data and information in order to find solutions to economic problems and will communicate these solutions effectively
- deepen their understanding of economic situations and resolutions to economic issues
- learn to distinguish between facts and value judgments
- be able to evaluate economic data from a wide range of economic sources in order to make informed decisions

Assessment

- The course will be assessed through a question paper (exam) and an assignment, which will be marked by SQA and graded A to D.
- The question paper is worth 90 marks and makes up 75% of the total assessment mark.
- The assignment (30 marks) makes up 25% of the total assessment mark. Learners select an appropriate and current economic topic/issue, research and analyse information, and produce a report using given headings.

Question Paper Section 1: two questions based on stimulus material such as graphs, diagrams and/or text (30 marks)
Section 2: three questions, each based on a different area of study (60 marks)
