

TECHNOLOGIES

CURRICULUM PATHWAYS

S3

ACADEMY

The STEM Academy course focuses on Fourth Level Experiences and Outcomes (and beyond) with in-depth study of STEM subjects (including alignment to National 5 where appropriate)

PATHWAY 1

Skills based course covering remainder of Third Level and all Fourth Level Experiences and Outcomes (gathering evidence to achieve National 4 where appropriate)

PATHWAY 2

Skills based course focusing on Fourth Level Experiences and Outcomes (and beyond) with in-depth study of Business, Creative Thinking, Graphic Communication and/or Practical Woodwork (including alignment to National 5 content where appropriate)

S2

S1

THIRD LEVEL EXPERIENCES & OUTCOMES

An integrated course that has been collaboratively planned to include aspects of Enterprise, Design, Graphics and Engineering. The transferable skills developed allow pupils to progress into any area of Technologies Technologies/STEM Academy
