

# Modern Languages

French, German, Spanish

## French, German, Spanish

The French, German and Spanish course aims to build on the generic language skills learned in S1 and allow you to develop a deep understanding of your chosen language, culture and grammar. Throughout the course, you will develop your knowledge and understanding of that language in practical and relevant contexts, such as citizenship, society, learning, employability and culture and focus on reading, writing and listening and talking. The study of a modern language has a unique contribution to make to the development of cultural awareness, as it provides you with a means of communicating directly with people from different cultures, enhancing your understanding and enjoyment of other cultures and of your own. You gain insights into other ways of thinking and other views of the world, and therefore develop a much richer understanding of active citizenship.
