ArthroFos[®]

Tablets
for dogs

Proper joint functioning

Glucosamine
Chondroitin

60 tablets

Dietary supplement for dogs

Properties

Glucosamine and chondroitin are essential elements of the synovial fluid and cartilage responsible for proper joint nutrition. Vitamin C naturally contributes to the synthesis of collagen – which is the main element of cartilage. Copper aids cartilage functionality. Manganese contributes to the maintenance of normal bones and the normal formation of connective tissue. ArthroFos[®] is recommended for young growing dogs of medium, large and giant breeds, and for senior dogs.

Directions for use

1 tablet per 20 kg body weight / day
