

Dear Parent/Carer,

As previously communicated, in line with all Falkirk schools, Braes High School will host an engagement event in relation to the proposed changes to the learning week on Wednesday 15th May at 7pm. This will take place in the assembly hall. Please come to the doors at the front of the school next to the pool, where you will be directed towards the hall. This event will allow parents/carers to hear the presentation outlining the proposed changes to the learning week, and to be advised on how feedback or queries from parents/carers can be submitted. Please note that this event itself will not be a general discussion of the proposals, or a mechanism for collecting feedback.

The arrangements for online access to the presentation have now changed. Parents/carers who wish to listen to the presentation online can do so via the link to the Council website below. The presentation that will be delivered on the night, is the same as the narrated presentation for secondary schools, linked below. Also at this link is additional information about the proposal, and the procedures for submitting feedback or queries.
