- Regulatory/Legal Affairs
- Supply Chain/Procurement
- QA/QC
- Corporate Management

Testimonials

“Great venue and close to MedTech Cambridge area.....sounds perfect to me.

James Rowe,
JL Goor

“This is a great venue, nearer to us, I would definitely be keen for more engagement with Cambridge based companies at the event.

Nicola Wheeler-Thorn,
AND Technology & Research

“This is a much better venue, the distance to the science parks is far closer so would hopefully see an upturn in visitors.

Neil Skyba,
Polymermedics

“MSS had the privilege of participating in the MTUK event. The event was exceptionally well-organized and well-attended, further cementing its status as a premier gathering for the Med-Tech industry. Each year, MTUK continues to grow in both stature and reputation, attracting industry leaders, innovators, and professionals from across the sector.

Anastasija Mathias, Founder/CMO, Mathias Synergy Solutions

“The show provides really great leads and opportunities. It's a good networking opportunity to meet suppliers, competitors and customers. I find it a very good Show.

Darren Vine,
Director Sales for Europe & Global Marketing,
Tegra Medical

“Taken some strong UK-based leads from potential new customers, which is traditionally quite tricky to do including leads from universities on both days.

James Billingsley,
Technical Sales Engineer,
Mectech Automation Group

“We're here to connect with our industry peers and stay up to date with all the new things in medical innovation. We're a contract manufacturer of medical devices and it's a great opportunity to share what we do with our customers.

James Fenton,
Managing Director,
Meridian Medical

“We are delighted to be at Medical Technology UK in a high value sector. It's a show that we and our members fully support and it's an excellent opportunity to network.

Alan Arthur,
CEO,
GTMA

“With strong footfall, quality conversations, and real business generated, the Show offered meaningful engagement with both start-ups and established players. The event provided a valuable platform to showcase our lab's capabilities in medical device testing, strengthen industry connections, and gain insight into evolving R&D and regulatory trends.

Marianne Browning,
Business Development Manager,
Test Labs
