

# Step Up Training and Care

From Training to Caring, we deliver excellence

Qualification Name	Level 3 Certificate in Assessing Vocational Achievement
Qualification achieved	Highfield Level 3 Certificate in Assessing Vocational Achievement (RQF) 600/3871/8

## Qualification Structure

This qualification is assessed by a portfolio of evidence, which will cover all assessment criteria contained within the units stipulated in the rules of combination for each qualification.

Before starting the course, you may be required to provide previous achievements or recognition of prior learning. This helps reduce the amount of time spent to prepare for the course.

To complete the qualification, you must have access to two learners who you assess in the classroom and in the workplace. You can use different learners for the classroom and workplace assessments. We can assist in finding suitable learners to assess if you require it.

Assessment Methods:

Unit 1: a variety of writing assignments and submit them

Unit 2: assessment needs to be taken in a workplace, basically evaluating learners' work, professional discussions with audio-video evidence.

Unit 3: you need to be evaluated through your delivered work items and audio-video evidence after you assess learners in a training environment.

Video Assessment: Including observation, questioning/professional discussion, and inspection of supporting work product evidence needs to be planned to 15-30 mins.

## Qualification Duration

Qualification duration for award is 154 hours, of which we recommend 84 guided learning hours. This equates to approximately a 6-month timescale but is dependent on a learner being engaged in their studies, submitting evidence to match the learning criteria usually on a weekly basis to your personal assessor.

## Costs

This course is £400

50% is payable at point of enrolment with the remaining 50% payable upon completion of the qualification.
