

your peace of mind

When dealing with waste you need confidence that the people you choose can meet your expectations. MSS operates accredited systems and processes which enable us to control all aspects of your waste service. We manage all your Duty of Care requirements.

the MSS difference

We understand that the waste you produce is someone else's valuable resource. We work with you to reduce your waste materials and realise the value from your resource through a wide range of local reprocessors.

Our people understand that waste management is changing and seek to innovate at every opportunity.

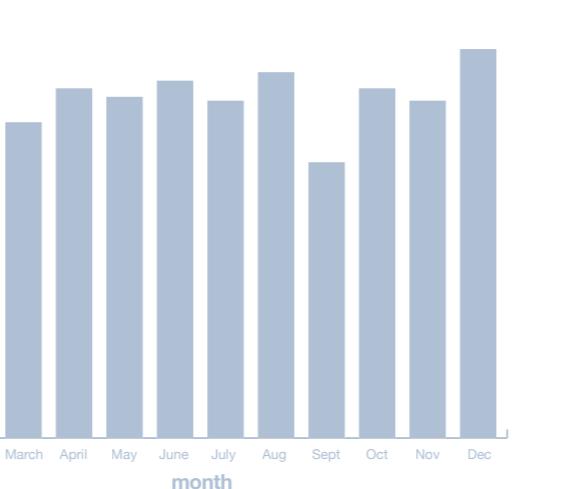

Our understanding of waste management is firmly based on technical expertise.

Our waste audit will identify changes that will improve your waste management.

tonnes of waste diverted from landfill by client

| Client | Landfill | EFW | Reuse/Recycled | AD | Other Treatment | Total |
|--------|----------|--------|----------------|------|-----------------|-------|
| A | 32.08 | 871.98 | 789.27 | 8.13 | 0.00 | 1701 |
| B | 20 | 575 | 438 | 0 | 69 | 1105 |
| C | 52 | 299 | 13 | 0 | 0 | 364 |
| D | 0 | 71 | 38 | 0 | 15 | 124 |
| E | 0 | 0 | 0 | 0 | 0 | 0 |

waste audit

We will work with you to undertake a waste audit, review existing waste management practices and identify where improvements can be made. We will then implement the changes agreed upon and review performance against targets set on a monthly basis.

Established and cost-effective waste management options.

We employ Health & Safety, Environmental, Quality and Technical Specialists.

Dedicated Contract Manager & support staff.

Highly trained and experienced waste consultants.

We undertake a detailed waste audit for each client.

Our waste audit will identify changes that will improve your waste management.

Our people understand that waste management is changing and seek to innovate at every opportunity.

Our understanding of waste management is firmly based on technical expertise.

Safety is our number one commitment.

We are committed to work with clients in a flexible and proactive way to ensure continuous improvement.

Innovative waste solutions.

We will work with you to achieve zero waste to landfill.

We are committed to following the principles of the waste hierarchy and continually exploring better environmental options for your waste. We have a structured approach to understanding the waste streams and prioritising the waste streams that can be more effectively segregated and recycled. Our consultant led process has resulted in significant savings for our clients.

Our cloud based Waste Logics portal gives our clients real time management information on all waste data from the initiation of an order to duty of care tickets. The data is used to generate illustrative charts on recycling and contract performance, presented in a Monthly Waste Management Report.

WasteNet ensures clients full access to waste data.

Our primary focus is the safety and wellbeing of our waste teams and any other person who may be in the vicinity of our area of work. We are ISO 45001 accredited, all our waste management process are documented in our Waste Management Policy and Procedure, which is accredited to ISO 9001, ISO 14001 and ISO 45001. We employ a dedicated in-house HSEQ team. This means we commit to the very highest safety standards everyday.
