# RodeVit® C drink

**Vitamin C  
for guinea pig  
water-soluble**

**60 g**

## Dietary Supplement for Guinea Pigs

### Properties

Guinea pigs lack the physical ability to manufacture vitamin C in their bodies. RodeVit® C drink contains vitamin C which is essential to guinea pigs to support their immune system and to maintain good growth and health.

### Directions for use

1 measure (0.7g) per 50 ml of water.

Formula should be dissolved in drinking water and poured into a drinking bottle or bowl.

As vitamin C oxidizes quickly, drinking water should be changed on a daily basis.
