OrnitoVit® CANARIES

Vitamins and Minerals for Canaries and other sparrows

60 g

Dietary Supplement for canaries and other sparrows

(zebra finches, java sparrows, spice finches, society finches, cut-throat finches)

Properties

OrnitoVit® CANARIES is a soluble mixture of well-balanced vitamins, minerals and essential amino acids. OrnitoVit® CANARIES plays an important role in balancing the nutritional requirements of your birds, to improve overall condition, performance, aid fertility and support the immune system. The product is the key to impeccable plumage and better feather quality.

Directions for use

1 measure of the formula (0.7g) per 50 ml of water. It is administered after dissolving in drinking water and the birds take it according to their own needs. When feeding with food - 1 measuring cup per 1 tablespoon of egg mixture (amount for approximately 15 adult canaries). You can also give the measured amount when mixed with soft food.
