

Job Description – Air Conditioning Engineer

Company: D-Mec Services Part of the Empower Group

Salary: £42K – 46K per annum plus OT depending on experience

Employment: Full Time

Location: Leighton Buzzard

About the Company:

D-Mec Services is a well-established business with over 25 years of experience in the refrigeration, air conditioning, heating, and ventilation industry. We specialise in the design, installation, and maintenance of HVAC systems for commercial and industrial clients across sectors including healthcare, education, and manufacturing. Our dedicated team of qualified engineers delivers reliable, cost-effective solutions with a strong focus on safety, quality, and customer satisfaction.

D-Mec Services is part of Empower Technical Services a fast-growing UK technical services group whose mission is to unite complementary capabilities in Mechanical, Electrical, HVAC, Renewables, and Fire & Security to better serve commercial and industrial clients. Joining D-Mec means contributing to essential infrastructure while benefiting from the scale, investment, and career opportunities of the wider Empower group.

Job Profile

The successful candidate will play a vital role in supporting our installation, service, and maintenance teams. We are seeking an experienced and self-motivated engineer who can work independently as well as collaboratively.

Key Duties and Responsibilities

- Carry out servicing, maintenance, and installation of air conditioning, refrigeration, and ducted systems
- Ensure all work is delivered to high standards of safety, quality, and compliance

Essential Requirements

- F-GAS Certification 2079 – minimum Level 1 and Level 2
- Minimum 5 years' industry experience
- Ability to work autonomously and as part of a team
- Full UK driving licence
- Ability to pass an enhanced DBS check to enable unescorted access to client sites

Benefits:

- Company pension, Life Insurance, annual leave, healthcare
