An integral sink will improve the ergonomics and hygiene of a kitchen or bathroom area, particularly regarding interior commercial applications. Staron's 100% acrylic sinks and bowls are installed in combination with Staron's sheet materials as part of a continuous surface featuring a flawless and seamless, uninterrupted fit. This translates as no gaps or crevices for bacteria or mould to accumulate and grow. Whichever style you choose, Staron's non-porous, hygienic surfaces will always be easy to clean and maintain.

staron® Bowl Series
