

INGENIOUS PROBIOTICS

LUCAA⁺ SHAMPOO

PROBIOTIC HEALTHCARE & HYGIENE FOR PETS

Reduces Skin Irritation, Infections, Itching & Odour

LUCAA+ Pet Shampoo is scientifically formulated to thoroughly and gently clean and nourish fur and skin. It is chemical-free, contains no aluminium or parabens, and is hypoallergenic with a neutral pH. This makes it ideal for animals with sensitive skin.

Dogs have a naturally different skin acidity from humans and are more prone to irritation from chemicals. Frequent washing with chemical shampoos can harm their skin's natural microflora balance and cause irritation. In contrast, LUCAA+ Pet Shampoo enriches the skin and can be used whenever required.

Thoroughly & Gently Cleans at a Deep Microbial Level

LUCAA+ Pet Shampoo is packed with the natural cleansing power of 'good' probiotic bacteria, naturally sourced from plants. These helpful probiotics gently clean at a deep microbial level, which helps improve overall health and well-being. They inhibit potentially harmful bacteria, which significantly reduces the risk of infection. They remove the bio-allergens that trigger allergic reactions (such as pollen and dust mite faeces) as well as clean dirt and stains from the skin and fur.

Unpleasant dog odour is caused by unhealthy sebum - the layer of fat under the skin that protects dogs from infection and cold weather. Seborrhoea is a common condition where malfunctioning sebaceous glands cause dryness, redness, sensitivity and itching. LUCAA+ Pet Shampoo restores and replenishes the protective and healthy microbial balance of the sebum. This prevents and treats Seborrhoea and removes the source of unpleasant odour.

It also significantly reduces the risk of Pyoderma, a common bacterial skin infection that causes redness, lesions, itching and pus.

Bottle - 300ml
Bottle with Dosing Pump - 1 litre & 5 litres

✓ **Ideal for sensitive skin & frequent use**

✓ **Restores & maintains healthy sebum & skin**

✓ **Natural, vegan & chemical-free**

INSTRUCTIONS

Shake before use. Gently wet the fur with lukewarm water and massage the shampoo in thoroughly. For best results, allow to soak in for five minutes then rinse.

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- Do not swallow.
- Avoid contact with eyes & nose.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.

COMPOSITION

- Plant-Based Probiotic Bacteria (Auto-Active Microorganisms)
- Water
- Spring Aroma
- Emulsifier (Castor Oil)
