

INGENIOUS PROBIOTICS

ALLERGY-FREE (PREVENTION) SPRAY

Denaa⁺ PROBIOTIC HEALTHCARE BIO-CLEANING

Reduces Bio-Allergens that Cause Allergic Reactions

DENAA+ Allergy-Free is a simple to use and highly effective preventative spray that reduces uncomfortable allergy symptoms such as wheezing, sneezing and itchy eyes. The spray significantly reduces the bio-allergens that trigger these reactions - including dust mite faeces, pollen, animal dander and mould.

DENAA+ Allergy-Free is packed with the natural cleansing power of plant-based, 'good' probiotic bacteria. These helpful and completely safe probiotics gently work at a deep microbiological level to restore a healthy and natural microbial balance. This strengthens natural resistance to bio-allergens,

All ingredients are naturally sourced, non-polluting and non-irritating.

Strengthens Natural Resistance to Dust Mite Faeces

House dust mites are microscopic relatives of spiders. They live in dust particles and are found in most buildings, including healthcare buildings, all year round. These particles also float in the air, especially in buildings that are poorly cleaned or ventilated, or house many people and/or animals. Dust mites also thrive in soft furnishings such as mattresses, carpets, upholstery and curtains. They do not bite, but feed on skin flakes from humans and animals, and fungi. A typical mattress can contain tens of thousands of dust mites.

A single dust mite produces around twenty waste droppings every day. Each contains a protein bio-allergen that can be a major cause of asthma and allergic reactions, especially in the young and vulnerable. DENAA+ Allergy-Free significantly reduces the quantity of dust mite faeces, which significantly reduces symptoms.

INSTRUCTIONS

Maintain good general hygiene for best results. Shake before use. Spray DENAA+ Allergy-Free into the air and lightly mist onto surfaces. Do not wipe. Use once per day for the first five days then repeat once per day every three days.

RECOMMENDATIONS

- Do not use with products that may change effectiveness.
- For use on waterproof surfaces only.
- Avoid contact with eyes.
- Store in a dry place 10°C - 35°C.
- Keep out of the reach of children.

COMPOSITION

- Water
- Plant-Based Probiotic Bacteria (Auto-Active Microorganisms)
- pH Stabiliser
- Aloe Vera Aroma

Spray - 300ml
Refill Bottle - 5 litres
