# CONTROLS

Model

## Mk1 Remote Control

The **NECO MK1** is our most popular remote control system. It's water resistant, enclosed in an IP rated box and comes with 2 rolling code NECO handsets.

MK1

It can be used with up to 100 rolling code handsets. It can be operated automatically or with a deadman descent.

It's suitable for both domestic and commercial properties.

## Euro Remote Control

The **NECO Euro Remote Control** has many of the same features as our popular NECO MK1 but it also has a 13amp prewired plug and up/down/stop buttons on the face of the unit.

Euro Remote

It is optimised for installation and use and compatible with the NECO Version 1 Handset and the popular range of Safety Beams, for added safety.

## NECO Garage Remote Control

The **NECO Garage Remote Control** has a LED light on top of it, which remains on whilst the door is open and a 13amp prewired plug and buttons on the face of the unit.

New Garage Remote

It can be used with up to 50 Rolling Code Handsets and is suitable for both domestic and commercial purposes.

It is compatible with NECO Safety Beams & NECO Light Guards.

## AC Group Controller

The **NECO AC Group Controller** is designed to simultaneously operate from two to eight tubular motors.

AC

Two-Way

Four-Way

Six-Way

Eight-Way

It is compatible with all single-phase tubular motors.

## DC Group Controller

The **NECO DC Group Controller** can simultaneously operate up to 20 motors, making it the most efficient and cost effective fire safety product on the market.

DC Controller

The DC Group Controller is used in conjunction with the NECO Fire Control Panel and the NECO DC Tubular Motors.
