D

A technical drawing of a double door unit. The unit consists of two doors, each with a rectangular frame and a central panel. The overall width of the unit is indicated by a dimension line at the bottom right labeled '2694'. To the left of the unit, a dimension line indicates a height of '1694' from the bottom to the top of the unit. The drawing uses black lines on a white background with no text other than the dimension labels.

A technical line drawing of a double door unit. The unit consists of two side-by-side doors. The left door features a horizontal handle and a vertical lock indicator. The right door has a horizontal handle and a vertical lock indicator. A vertical dimension line on the left side indicates a total height of 1593. The top of the unit is shown with a decorative horizontal trim.

A technical line drawing of a double door unit. The unit consists of two side panels and a central horizontal frame. The left side panel has a height dimension of 752.50. The central frame has a height dimension of 752.50 and a width dimension of 2110. The right side panel has a height dimension of 752.50 and a width dimension of 2000. The overall width of the unit is 2500.

PW5625.INS-2.AG

NOTE:

All purewater tanks must be fully supported on a flat, level & continuous foundation providing structural support to the tank when full to maximum operating capacity. It is essential that the user refers to the conditions of installation document prior to the installation of the tank. Under no circumstances should the tank body be used to provide support to pipework and ancillary items. The tank lid is a structural part of the tank and must be in place and fitted correctly when water is contained within the tank.
